PROFILE

Full Stack JavaScript Developer, holder of the French Professional Title Application Designer & Developer (RNCP Level 6), specializing in React, Node.js, TypeScript and PostgreSQL. I build end-to-end web applications, from interface to deployment, with a strong focus on code quality, API security and CI/CD automation. **Creator of Kalhyge-Prod, a real-time production tracking application developed and presented for the CDA qualification.**

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript ES6+, Vue.js, Tailwind CSS, HTML5, CSS3

Backend & API: Node.js, Express, PHP, REST APIs, Socket.IO

Data: PostgreSQL, MySQL, SQL Server

Testing & Security: Jest, JWT, rate limiting, data validation, npm audit, CORS

DevOps: Git, GitHub Actions, CI/CD, Docker, Vercel, Render, Biome

DEVELOPMENT EXPERIENCE

Full Stack Web Developer | [Makaramedia](#) | Jan. 2026 - Mar. 2026 | **Remote**

- Developed a social media aggregator enabling clients to prepare, organize and schedule posts.
- Integrated Pixabay, TikTok, Facebook and Instagram APIs; added image/video insertion into publishing calendars.
- Built publishing calendar and scheduling features across frontend and backend.
- Stack: React, Tailwind CSS, PHP, MySQL, REST APIs.

Web Developer | [SSD Group](#) | 6-month internship - 2022 | **Paris**

- Maintained and enhanced existing web applications: bug diagnosis, fixes and feature development.
- Worked on CRUD features, including customer data creation and updates.
- Queried and managed databases with MySQL and SQL Server; HTML/CSS for frontend interfaces.

KEY PROJECT

Kalhyge-Prod - Industrial Production Tracking | [CDA Certification Project](#) | 2025

- Designed a Full Stack application for real-time production tracking, inspired by issues observed in an industrial environment.
- React frontend; Node.js/Express REST API; PostgreSQL; real-time communication with Socket.IO.
- JWT authentication, rate limiting, data validation, Jest unit tests and quality checks.
- CI/CD with GitHub Actions; deployment on Vercel/Render; separate frontend and backend repositories. Project presented for the CDA qualification.

PROFESSIONAL EXPERIENCE

Production Operator - Shipping | [Kalhyge](#) | Dec. 2021 - Present | **Bourg-en-Bresse**

- Prepared, processed and checked customer orders before shipment.
- Recorded and updated orders in the internal information system; managed backorders and order issues.
- Operational experience that shaped the business needs behind the Kalhyge-Prod project.
